SHIPPING WEIGHT (TOTAL CRATED WEIGHT, FIREPLACE AND POWER VENT)

	12" HIGH	20" HIGH	30" HIGH	36" HIGH	60" HIGH
3'	690	745	800	850	1,060
4'	770	845	920	990	1,220
5'	850	945	1,040	1,130	1,380
6'	930	1,045	1,160	1,270	1,540
7'	1,010	1,145	1,280	1,410	1,700
8'	1,090	1,245	1,400	1,550	1,860

Dimension table is based on single sided examples, multi-sided units may fluctuate.

Weight table is for estimation purposes only, actual weight depends on a variety of factors such as power vent type and media choice.

Simplified Installation

COMBINED COMBUSTION AIR DUCTS

SOURCE LOCALLY

Combining combustion air ducts is sometimes required to facilitate field installation of the Prodigy models.

This is easily done when the same equivalent free air area is maintained or exceeded.

For example find the equivalent single air duct required for two 8" intake. This requires 50.3 inches per 8" round an equivalent single duct would require 100.6 square inches of free air area. The equivalent round duct for this would be 12" diameter.

A transitional plenum or wye could be used above the unit and the two single 8" ducts can run from the plenum/wye to the top of the unit and the vent to the outside in 12" diameter duct.

COLLAR SIZES (IN DIAMETER)	AREA (IN SQ")
4	12.6
5	19.6
6	28.3
8	50.3
10	78.5
12	113.1
14	153.9
16	201.1

USING ROOM AIR FOR COMBUSTION

Some locations allow for fresh air to be drawn from the room in which the fireplace is installed. This type of installation is acceptable from a functional perspective so long as adequate free air is available in the room, but local codes may not allow this type of air supply. Always check local regulations for air supply before installing the fireplace.

In. Included dampers

Prodigy units include two 50' lengths of damper cable (EC1178-50)

PART	ORDER CODE	LIST PRICE
Prodigy Combustion Air Dampers (Included in unit price)		
6" Combustion Air Dampers	EC1431	Incl.
8" Combustion Air Dampers	EC1199	Incl.
10" Combustion Air Dampers	EC1487	Incl.

Op. Optional dampers

Damper cable for flue gas dampers not included

PART	ORDER CODE	LIST PRICE
Prodigy Flue Gas Dampers		
8" Flue Gas Dampers	EC1489	\$629.00
10" Flue Gas Dampers	EC1494	\$739.00
12" Flue Gas Dampers	EC1495	\$869.00

DAMPER CONSIDERATIONS

The usage of a flue gas damper should be consideration in situations with a:

- Cool climate
- Highly corrosive environment (ex. seaside)
- High wind area

Op. Optional muffler pipe

PART	ORDER CODE	LIST PRICE
Prodigy Muffler Pipe		
10" Muffler Pipe	MUF-D10	\$875.00
12" Muffler Pipe	MUF-D12	\$950.00

MUFFLER CONSIDERATIONS

The usage of a muffler should be consideration in situations with a:

- Short vent run
- Residential setting
- Space without sound dampening surfaces
- High wind area
