HeatFlo™ Kit

Protect heat sensitive televisions, artwork and other decorative wall materials. No blower required, the HeatFlo™ kit works through natural convection to redirect heat from the fireplace upward through hidden ductwork and out through a sleek horizontal vent. Walls stay cooler and heat flows more evenly through the room for a comfortable fireplace experience.

- 🔥 TV & Artwork can be placed above the fireplace
- 🔥 Helps protect heat sensitive wall facing materials
- 🔥 Improves convective heat circulation in the room
- 🔥 No electricity or blower required for operation
